

Hi All,

Dave Pease from Pepperell Channel 15 will be videotaping the Statewide Summit on November 15. Here is his response to your inquiry about availability of the event:

"We put our video into our Video On Demand site on the internet. It can be reached from our home page at pepperellchannel.org.

I put all of the pipeline videos into the "Pipeline" playlist which is first in the list of playlists. The videos on our Video On Demand site have a share button that shows the link to the video that can be used email and social media sites."

If you need additional information, please feel free to contact me.

Regards,

Paula Terrasi
